Dear Sir/Madam

The University of Greenwich takes its role of meeting its sustainability responsibilities very seriously. To ensure this issue is considered at a strategic level I am nominated as the University's senior staff member (and I sit on the Vice Chancellors Group), with responsibility for sustainability. I am therefore a lead and member of many key strategic and operational bodies and so ensure that sustainability is considered in decision making. I am also chair of the Sustainability Management Committee, which includes senior representatives from across the University.

In 2021 we launched the new Corporate Strategy: Strategy 2030 and we are proud that sustainability is integrated within this important document.

Yours sincerely

Professor Andrew Westby  
Deputy Vice-Chancellor, (Research and Enterprise)
